# A Glad With Pockets and Spurs

Nothing like it ever known,  
So it is named Partain's "ALONE."

Almost every petal of each floret, clear to the tip, has pockets and spurs, resembling those on the long-spurred columbine. The florets are over four inches across, very ruffled, almost self-color, a very soft, melting light salmon pink. It is very early and blooms from bulblets.

"ALONE"

This Glad may start a new race of Glads and will be highly interesting for hybridizing purposes as well as being a beautiful Glad in itself.

Mr. Joe Partain, the originator, wishes us to introduce this "Pocket Glad" at \$100 per bulb of any size except No. 6's, which will be \$50. Bulblets will be \$10 each. He intends to maintain this price for some time.

As a rule, we cannot be responsible for a customer's success in germinating bulblets, but we will make the following offer in regard to bulblets of ALONE. With every cash order for a bulblet of Alone, we guarantee two bulblets the following season if your bulblet did not germinate. It is a good germinator and with care you should be successful the first season.

# THREE NEW GLADS

introduced for the first this season 1930-31

## GOLDEN CHIMES

(Originated by Merton G. Ellis)

This is a most exquisite ruffled glad. The florets are large, wide open and a very clear yellow with brighter yellow throat. It is a very well-shaped, graceful spike and is as beautiful as the name signifies.

## BIRD OF PARADISE

(Originated by Mrs. George Crites)

This is a most gorgeous cerise pink, a worthy descendant of Purple Glory. The florets are large, wide open and well-placed. It attracts much attention for its unusual coloring and will be a great cut flower in the future.

## COMMODORE

(Originated by Mrs. Merton G. Ellis)

This is a gorgeous cut-flower either alone or arranged with Madame Mounet-Sully. Commodore is a very clear, bright-red with white throat, just the converse of Sully, which is white with bright-red throat. Such a combination is very striking. Commodore makes a graceful spike, many florets open and is a very satisfactory glad. It is somewhat similar to Lady Macbeth but an improvement in many ways. It is a better propagator, great germinator, produces a better spike, is considerably earlier and a healthier bulb.

We are also in receipt of many fine letters concerning our originations and ranking our originations as the finest produced in the Pacific Northwest.

### YOU MAY WIN \$10.00 IN BULBS WITH EACH BLUE RIBBON

For each Blue Ribbon you win with an Ellis Origination during the next two years, we'll let you have \$10.00 worth of bulbs free, of Ellis Originations, your selection. You must win the ribbons either at the National A. G. S. Show, a State Show or State Fair, or an A. G. S. Regional Show, or any show of equal size and rank with any of these. Also send us the original or a duplicate Blue Ribbon and the Secretary's certificate.

We also hereby authorize any Show of the above rank to make the above offer for us.

### Have You Tried the Oregon Giant Pansies? If Not, Why Not?

This strain is originated and grown by Mrs. Merton G. Ellis and has become world famous.

A customer of several years standing, Mr. Ernest Williams, 1508 Wayne Ave., Pasadena, Calif., writes:

"I have advertised 'The Oregon Giants' so much by word of mouth that a flower-loving horticultural friend begged mine away, so now I am enclosing 'one plunk' for which please send me another packet. I don't know what these pansies do in Oregon, but the way they cut up down here is a sight to behold! I was at the Pasadena Flower Show last year and saw a gentleman dragging some of the longest-stemmed and biggest-flowered pansies out of a box that I have ever seen. I said, 'Young Man, whence these giants?' 'Oh,' he said, 'I procured the seed of Ellis in Canby, Oregon. There is nothing better in the whole wide world in the line of pansies.' They are gaining a reputation for themselves down here that seems to be backing the others off the boards."

Buy your seed direct and be sure of true stock from selected seed plants.
